Professional Summary

Full Stack Developer with 1 year of professional experience building production Next.js, React.js and TypeScript applications, plus self-driven full-stack project experience using Node.js, express.js, and MongoDB. Skilled in translating Figma designs into responsive, pixel-perfect UI and integrating REST APIs end-to-end. Proven track record of independently shipping complete projects, including an AI-integrated job platform with role-based access control and resume analysis.

Skills

Languages & Frontend: JavaScript, TypeScript, React.js, Next.js, Redux Toolkit, HTML, CSS, Tailwind CSS

Backend & Database: Node.js, Express, NestJS, REST APIs, PostgreSQL, TypeORM, MongoDB

Tools & Platforms: Git, GitHub, Vercel, Railway, Postman, Bruno, VS Code

Other: Java 8, Core Java, OOPs

Professional Experience

GoSuper EdTech **March 2025 – April 2026**

Junior Full Stack Developer *Full Time*

- Translated Figma designs into responsive, production-grade UI using Next.js, TypeScript, and Tailwind CSS, shipping pixel-perfect features across multiple sprint cycles.
- Built and integrated REST API endpoints (GET, POST, PUT, DELETE) in NestJS to support end-to-end frontend feature workflows, collaborating with backend and design teams in an Agile environment using Jira and GitHub.

Business Operations — Family Cedarwood Import Business **Sep 2023 – Jan 2025**

Business Operations *Family Business*

- Managed warehouse inventory, labour workflow, cedarwood cutting/packaging dispatch, vendor coordination, and commercial floor rental operations.
- Concurrently built React.js, JavaScript, and Tailwind CSS frontend fundamentals through self-driven project work, laying the foundation for a transition into full-time development.

The Sparks Foundation **April 2022 – May 2022**

Web Development Intern *Remote*

- Built secure Razorpay payment gateway integration and responsive UI components.

Projects

Job Align Platform | Next.js, NestJS, TypeScript, PostgreSQL, Tailwind CSS

- Built a full-stack AI-powered job portal with role-based access control for recruiters and candidates, implementing JWT authentication, bcrypt password hashing, and a custom RolesGuard using NestJS Passport strategy and decorators.
- Integrated Groq LLaMA 3.1 AI model to automatically analyze candidate resumes against job descriptions, extracting PDF text via pdfjs-dist and returning structured match scores, strengths, and missing skills using JSON-enforced prompts.
- Engineered a modular NestJS REST API with TypeORM and PostgreSQL for job listings, applications, and Cloudinary-based resume uploads.
- Deployed backend on Railway and frontend on Vercel, managing environment configuration across both platforms.

LMS Platform | Next.js, NestJS, TypeScript, Tailwind CSS

- Built a full-stack Learning Management System with course management modules, dashboard stats cards, and reusable modal/form components using Next.js and Tailwind CSS.
- Developed a NestJS backend with REST APIs and DTO validation, following a controller/service architecture, connected to the frontend through a dedicated API service layer.

Appwrite Blog Platform | React.js, Redux Toolkit, Appwrite, TinyMCE

- Developed a blog platform with Appwrite authentication, CRUD-based post management, and responsive React UI components.
- Integrated TinyMCE editor, Redux Toolkit for state management, and React Router for publishing and navigation workflows.

Education

Bachelor of Engineering (Computer Engineering) **July 2019 – July 2023**

Dr. D Y Patil College Of Engineering *CGPA: 8.1/10*

Certifications

Full Stack Developer

Web Development Certification
